

EZ PlantView™

Features:

EZ Plant View, is a software tool that gives you a bird's eye view of your plant, right from the comfort of your desk. EZ Plant View, a software package, can be installed on any Windows based PC in combination with any EZSeries Touchpanel equipped with the EZRMC card or an EtherNet port.

EZ Plant View allows you to monitor a limitless amount of panels simply by identifying their IP addresses. It then shows the status of those panels with user defined colors and conditions. To get a closer look, drill down even further and EZ Plant View will automatically display the actual screen using the EZRMC software (included). This software allows you to monitor or take control of the touch panel without even standing up. Walking miles around the plant is now a thing of the past and finding a new form of exercise will be on your mind instead!.
